Virinchi Healthcare Pvt Limited Announces its first 600 bed super Speciality hospital in the heart of the City of Hyderabad.

Virinchi Healthcare Pvt Ltd, a 100% subsidiary of Virinchi Ltd, is opening its first super speciality hospitals with focus on CONNECT specialties- an acronym for **Cardiac, Ortho, Nephro, Neuro, Emergency, Cancer and Transplantation**, in the city of Hyderabad.

Virinchi Hospitals is a 600-bed super-specialty hospital being opened in the heart of the city of Hyderabad at Banjara Hills, Road# 1. The Hospital is spread over a total area of 350,000 sft across four inter-connected buildings, catering to all segments of patients, irrespective of their income groups. The poorest of the poor patient shall have the best care without any compromise on quality of doctors, nursing staff, processes, digital support, Diagnostics, Theatres and ICUs.

Right to Science

The hospital is developed with an objective to provide **Right to Science** for every patient to reduce her suffering and cure herself at least to the limits of the science available on the planet, irrespective of her ability to pay.

In pursuit of this endeavour, the hospital brings several firsts to healthcare.

15,000 + Bio-marker Diagnostics Lab: The diagnostics Lab has the ability to test over 15,000+ bio-markers including Molecular Diagnostics across Epigenetics, Genetics & Exome sequencing services.

Full Spectrum Radiology markers: Virinchi Hospitals has industry's most advanced 3T fMRI, Dual energy 128 slice CT scan, IVUS-FFR Cath Lab, Twin Detector Digital X ray, 4D ultrasound with capability to capture full spectrum of radiological imagery.

Sub Speciality Centres of Excellence [CoE]: Virinchi Hospitals has uniquely defined Sub-Specialty CoEs across 28,000 diseases including super-specialty clinics like Stroke Clinic, Epilepsy Clinic, Breast Clinic, Blood Clinic, Liver Lab etc.

India's first Enterprise-wide Mobile App: Virinchi Hospitals Mobile app enables each patient to have the complete medical history of every test and hospitalization record on the cloud and as well as on the mobile for entire life time, which the patient can zip and instantly forward to any doctor for a second opinion. The mobile app enables mobile based video-consultation thus obviating the need to revisit the hospital.

First Hospital to use Big Data for Healthcare Analytics - The app provides personalized medication and preventive healthcare information using health analytics based on big data of the patients personal demographics, biomarkers, epigenome, exome, symptoms, allergies, API exposure, disease progression information etc.

Tablet and Mobiles replacing desktops - Virinchi Hospitals is a truly paperless 'mobile-only' hospital with all front office, nursing and ward processes executed completely on tablets.

Active International Collaborations: Virinchi shall leverage its presence in Developed markets to build active collaborations with globally leading medical institutions. Specifically, the Hospital shall invest to develop formal relationships around stem cell based therapies, organ regeneration, adoptive immune therapy, check point inhibition therapies, re-construction surgeries, gene editing, fully guided surgery, implants and transplants.

With unparalleled physical infrastructure in the heart of the city coupled with 'every single data on your mobile' model, conforming to the NABH and JCI guidelines, employing full time highly qualified & experienced team of Specialist Doctors, trained in the premier institutes of India and abroad, makes Virinchi Hospital the first choice destination for alleviation of pain & suffering across all ages.
